

Seamless Cross-Border Service to and from Mexico

Union Pacific and Kansas City Southern de Mexico (KCSM) offer direct routes to the Chicago and Los Angeles markets

Ship to and from Mexico via Union Pacific's cross-border service, an all-rail service that bypasses congested border crossings and takes the guesswork out of doing business across the border. Our dedicated team of experts works closely with Kansas City Southern de Mexico (KCSM) to create a virtually seamless network that makes doing business in Mexico efficient and easy.

Southbound shipments do not stop at the border for customs clearance. Instead, they travel in-bond, clearing customs at interior Mexico origins and destinations.

In addition, our through-rate structure provides you with the convenience of a single price and a single bill for ramp-to-ramp and door-to-door shipments to and from Mexico.

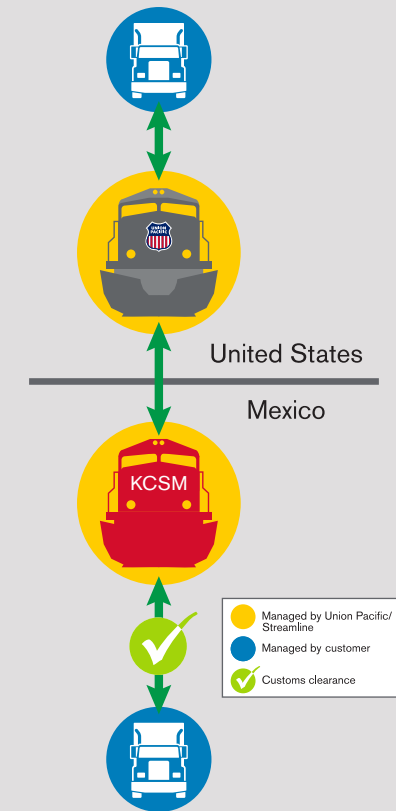

Reach More Mexico Markets

Routes include:

- San Luis Potosi, Toluca, Mexico City and Salinas Victoria (Monterrey) to/from Chicago
- San Luis Potosi, Toluca, Mexico City and Salinas Victoria (Monterrey) to Los Angeles
- Interline service to/from Canada and the eastern U.S. via Chicago

Union Pacific's Cross-Border Service

Why Choose Union Pacific?

- **Save time and money** with the ability to bypass congested border crossings.
- **Remove confusion from the customs process** when you rely on our established relationships with freight forwarders and customs brokers to make the process seamless.
- **Ship when you need to ship** with access to EMP and UMAX equipment, the largest dedicated fleets of rail-provided containers.
- **Rely on our dedicated team of bilingual experts** available 24/7.
- **Stick to your schedule** with consistent services and truck-competitive reliability.
- **Ship with peace of mind** with complete visibility to your shipments with web-based interline trace and reporting tools.
- **Take advantage of extensive service options** connecting you to rapidly growing Mexican markets.
